CommScope® Twin Door Vertical Cable Managers

CommScope® announces Twin Door Double Sided and Singled Sided Vertical Cable Managers.

The new CommScope Twin Door Vertical Cable Managers (VCM's) are lightweight with sturdy doors available in 2 widths - 6 in (15.2 cm) and 8 in (20.3 cm). Single and Double sided troughs are available. Dual hinge latching doors can be opened right or left. Front and rear doors are standard on double sided options.

The new Twin Door VCM's provide a C-channel hinge bracket that allows free and open access to the entire length of the trough and flexible X-style cable fingers allow quick and easy cable routing.

Features and Benefits

- Widths: 6 in, 8 in
- Heights: 84 in
- Cable fingers are spaced at 1 RMU increments for exact alignment with EIA standard rack spacing
- Optimally contoured cable fingers separate, organize and maintain patch cords in desired position
- Snaps easily (no tools or fasteners required) onto trough and provides cable and fiber slack management
- Cable finger radius protects cables during installation and use
- Cable fingers provide effortless solution transitioning cables from vertical to horizontal planes
- Cable fingers support up to 48 cables per RMU
- Open trough back reduces weight and allows cable or cords to transition easily from front to rear of trough
- Snaps easily (no tools or fasteners required) onto trough and provides cable and fiber slack management
